Amenities: Beach Access, Beach Front, Guest House, Luxury Property, Ocean Front, Ocean View, Pet Friendly, Private Com.

Summary: "The Cottages" is a 1.55-acre beachfront property located on the coveted Pink Sands Beach.

The property consists of three, one-bedroom, one-bathroom cottages each designed with a large, open floor plan, high ceilings and extra-large doors to allow the gentle ocean breeze in. Each unit has a spacious open air living room with all the amenities for enjoyment including incredible views of the ocean.

The interior spaces are designed with a casual, yet elegant island aesthetic, setting the tone for the future design of a larger main home. Covered outdoor patios and a roof deck allow you to take in the ocean hues and overlook the world-famous pink sand beach. These quaint bungalows allow a seamless fusion of indoor and outdoor living at its finest.

Each space has been renovated with new air-conditioner units and new electrical supply. A generator has also been installed as well as a new reverse osmosis system. Have a green thumb? You will love this yard with plenty of room to plant a garden
