Summary: A beautiful island spot to get away.

Located on the South Island of Bimini in what the locals call Buccaneers Point, this home sits right on the canal with provisions for dockage behind. This property truly is a boater's dream where you can catch a Marlin, Mahi, Snapper or Tuna along your way from Florida, which is only a 2 ½ hour boat ride away.

Cici's place is walking distance to the Bimini Sands Resort and Marina and very close to the South Bimini International Airport. Getting to North Bimini is easy as there's a quick ferry to North Bimini where you can explore the resort amenities and festivities there.

As the sun sets, like most South Bimini residents, you can relax peacefully in your little slice of heaven.
